Advancing Transport Through Research, Innovation and Data Driven Decision-making

The Centre for Transport Research and Development (CTRD) is a department expected to be positioned as a specialised technical centre dedicated to advancing Sri Lanka's transport sector through scientific research, engineering solutions, transport modelling, digital technologies and data-driven decision-making. The Centre offers an opportunity for qualified and motivated professionals to develop innovative solutions to national transport challenges, support sustainable mobility and evidence-based policy development, and contribute to nationally significant transport initiatives.

Are you ready to apply your technical expertise and academic rigour to shape the future of transport in Sri Lanka?

Join NTC and be part of a team advancing the nation through research, technology and innovation in transport!!!
